RECEIVED

AUG 10 2000

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Dear Ms. Tristani:

I urge you to reject the proposed merger of AOL and Time Warner.

ORIGINAL

The world's media corporations are already among the most powerful and influential businesses that ever existed. Allowing one giant corporation to couple Internet content delivery with Internet access is a potential threat to our freedom.

Over half of all Internet users in the United States subscribe to AOL. Time Warner, already the world's largest media corporation, provides cable service to one-fifth of all cable users. Time Warner's plan to buy controlling interests in EMI will bring over half of all the world's record labels under their control.

This is too much power and influence to be controlled by one corporation. The merger threatens to turn the Internet, which was created at public expense, into a privately controlled commercial enterprise.

The mass media and major news outlets are under the control of a handful of powerful corporate giants. The public is woefully uninformed about the threat posed by their growing influence.

As our agents you are expected to preserve competition, promote diversity and assure the public's unfettered access to free and open communication.

Please don't allow AOL to purchase Time Warner.

Sincerely,

Andrew McKenna

Ms Tristani

I don't know who to complain to, since I know your address, your it. I've complained before about the local radio station in Sheldon IA (KIWA) at the fact that they tend to bleed all over it radio dial. I thought it was a harmonic problem, or a problem with their tower. The FCC answered and said that I live too close to the station and that anyone within 2 miles of the tower would have similar problems. I don't buy that as an explanation. I think their tower is in need of proper grounding and tuning. That specific problem has not gone away, but now I have a new complaint.

Along with the KIWA radio tower there is a pager system on the same tower. The pager system operates on channel 20 of the cable TV system, and it interferes with channel 20 picture. I didn't care so much about that interference when they broadcast MTV on that channel. The Cable TV folks received enough complaints about the MTV problems that they swapped CNNFN with MTV knowing full well that the problem would not go away, just hoping that they wouldn't get so many complaints. Thus you are hearing from me because no one will fix the problems with the antenna system, the pager folks have rebuilt their transmitter, the cable folks have done all that they can, and the problem still persists. I put the ball in your court, there is something wrong with the system and only the government has the clout to get things done. I trust that you will forward this to the appropriate people to get something fixed way out here in Iowa..

Thanks for listening

Jim Lofflin

Over half of all Internet users in the United States subscribe to AOL. Time Warner, already the world's largest media corporation, provides cable service to one-fifth of all cable users. Time Warner's plan to buy controlling interests in EMI will bring over half of all the world's record labels under their control.

This is too much power and influence to be controlled by one corporation. The merger threatens to turn the Internet, which was created at public expense, into a privately controlled commercial enterprise.

The mass media and major news outlets are under the control of a handful of powerful corporate giants. The public is woefully uninformed about the threat posed by their growing influence.

As our agents you are expected to preserve competition, promote diversity and assure the public's unfettered access to free and open communication.

Please don't allow AOL to purchase Time Warner.

Sincerely,

Megan Kerins

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Date: 07/13/2000

Dear Ms. Tristani:

I urge you to reject the proposed merger of AOL and Time Warner.

The world's media corporations are already among the most powerful and influential businesses that ever existed. Allowing one giant corporation to couple Internet content delivery with Internet access is a potential threat to our freedom.

Over half of all Internet users in the United States subscribe to AOL. Time Warner, already the world's largest media corporation, provides cable service to one-fifth of all cable users. Time Warner's plan to buy controlling interests in EMI will bring over half of all the world's record labels under their control.

This is too much power and influence to be controlled by one corporation. The merger threatens to turn the Internet, which was created at public expense, into a privately controlled commercial enterprise.

The mass media and major news outlets are under the control of a handful of powerful corporate giants. The public is woefully uninformed about the threat posed by their growing influence.

As our agents you are expected to preserve competition, promote diversity and assure the public's unfettered access to free and open communication.

Please don't allow AOL to purchase Time Warner.

I am against the Time Warner / AOL merger. Time Warner's reluctance to offer The Fox News Channel on it's TV cable (which competes with it's own CNN -Cable News Network) already frustrates me. I don't want to see them "control" internet content the same they have in the TV-cable industry.

Thanks!
